

## Facelifted Mazda2 to premiere at Paris Motor Show

Leverkusen, 23 August 2010 At this year's Paris Motor Show, Mazda's focus is on low fuel consumption and reduced emissions.

Mazda's lightweight, **Mazda2** – World Car of the year 2008 – has **received a facelift** and celebrates its European premiere at Paris with the following key changes:

- **New front end** features **Mazda's unique family face** and upgraded interior
- Upgraded **Euro V powertrain line-up**
- **Upgraded chassis** for even better ride comfort
- Automatic transmission version introduced

Joining the facelifted Mazda2 will be **the all-new Mazda5 premiering** with a **new economical MZ-CD 1.6 diesel** engine. The Mazda5 people carrier is especially economic and family-friendly and offers:

- A frugal and powerful **1.6-litre diesel engine (5.2 l/100km, 115 PS)**
- **- 15% CO<sub>2</sub> emissions** in comparison to previous 2.0-litre diesel
- **New lightweight 6-gear manual transmission**
- An eye-catching design that sets it apart in the C-MAV segment
- Enhanced Karakuri interior flexibility for up to seven people plus sliding rear doors

**The new Mazda3** with an **upgraded MZ-CD 1.6 diesel** engine will also be introduced. Offering more power and torque, while lowering fuel economy and emissions, the new version features:

- **+ 6 PS** more maximum power,
- **+ 12% higher maximum torque**,
- **4.4 l/100km and 117g/km CO<sub>2</sub>**
- New lightweight 6-gear manual transmission
